Design Seen: Grace Bay Club

Samantha Brooks

MAY 01, 2014

Thom Filicia has provided a glimpse of his comprehensive redesign for the Grace Bay Club with the completion of the 20-year-old resort's lobby. The refreshed space presents shades of coral and sand that complement the Caribbean views, while lush potted palms, capiz-shell chandeliers, and wood furniture harmonize similarly with their island surroundings. The renovations are expected to continue into 2015. 800.946.5757, www.gracebayresorts.com
